

## Acknowledgements

Many people assisted us in the writing of this paper.

Dr. Sukanya Nitungkorn and Miss Chitra Vutisart, my associates in the project, collaborated in the writing of the proposal and in obtaining data. The National Statistical Office kindly allowed us to use the raw data of the 1976 Survey of Children and Youth. Mrs. Sasithorn Jotikasthira Mr. Neramit Dhanasakdi and Mr. Pichai Saiyasombat of this office were particularly helpful in processing their data so that these would be in a format that we could easily analyze.

We received financial support from the Council of Asian Manpower Studies, the Rockefeller Foundation, the Thai Kadhi Research Institute and the Research Unit of Faculty of Economics, Thammasat University. The University of the Philippines School of Economics financed computer expenses and research allowances.
