

Abstract

Annotated Bibliography on the Thai Economy, 1957 -1982

Volume 10 : General Economics

This research report surveys academic works, during 1957 - 1982, concerning general economics of the Thai economy. The term 'general economics' is used to cover consumer economics, urban economics, regional economics, and economics of transportation. It is found that there are 806 items on these topics, 269 items written in Thai and 537 items in English. Only 380 items, or 47.1% of the total items, were selected for annotation (see table 1 and 2).
