

LIST OF DIAGRAMS

| Diagram | | Page |
|------------------------------|---|-------------|
| MATERIALS AND METHODS | | |
| 1 | Steps of TcpA purification by ProBond purification system | 64 |
| 2 | Steps of cholera toxin preparation | 68 |
| 3 | Steps of LPS preparation | 72 |
| 4 | Steps for animal immunization, sample collection, and antibody assessment | 80 |
| 5 | Steps of ELISPOT assay for enumerating ASC in the blood circulation | 84 |
| 6 | Steps of an indirect ELISA for determining antibody titers in experimental rats | 86 |
| 7 | Steps of vibriocidal antibody assay (complement-mediated <i>Vibrio</i> lysis) | 88 |
| RESULTS | | |
| 8 | Steps used in TcpA preparation by Probond purification system | 90 |
| 9 | Steps used in cholera toxin preparation by affinity chromatography through galactose column | 93 |
