	Analysis	114
	The Envelope Curves	117
	Conclusion	129
5	CHOICE OF TECHNIQUE IN HUSKERS, ENGINES, AND CONVEYORS	140
	The Advantage of Rubber Rollers over Disc Husker .	140
	The Advantage of Electric Motor and Steam Engine over Diesel Engine	144
	Some Technological and Economic Aspects of Paddy and White Rice Conveying	148

TABLE OF CONTENTS

Chapter	Page
Introduction	148
Methods, Cost and Number of Worker Required of Conveyors, by the following conveying steps ..	151
(1) Paddy conveyed from boat or truck to * warehouse	151
(a) Paddy from boat to warehouse	151
(a1) Belt conveyor	151
(a2) Bucket conveyor	153
(a3) Basket transfer	155
(b) Paddy from truck to warehouse	158
(b1) Power, Cable & Board	158
(b2) Manual, Cable & Board	15
(b3) Basket transfer	159
(2) Paddy conveyed from warehouse to the milling machine	160
(a) Shovel loader	160
(b) Dumpable push cart or grain cart	162
(c) Basket transfer	162
(d) Basket and pole, or "Haap"	162
(3) Rice conveyed among milling processes	164
(Bucket elevator is the only practical method)	
(4) Milled rice conveyed from machine to ware- house (Labor is the only practical method)	165

TABLE OF CONTENTS

Chapter		Page
	(5) Milled rice conveyed from warehouse to boat or truck	165
	Milled rice from warehouse to boat	165
	(a) Belt conveyer and labor	165
	(b) Belt conveyer and cart	167
	(c) Cart or hand cart	168
	(d) Labor	168
	Conclusion	169
6	SUMMARY AND CONCLUSION	171
	Service Mills	172
	Trade Mills	173
	The Milling Profit	174
	Some Policy Implications	176
	Further Study Suggested	185
