ABSTRACT	(1)
ACKNOWLEDGEMENTS	(5)
CONTENTS	(6)
LIST OF TABLES	(10)
LIST OF FIGURES	(12)
LIST OF SCHEMES	(16)
LIST OF ABBREVIATIONS	(17)
CHAPTER	
1 INTRODUCTION	1
2 REVIEW OF LITERATURE	
1. General description of <i>Cleistocalyx nervosum</i> var. <i>paniala</i>	3
2. Uses of <i>Cleistocalyx nervosum</i> var. <i>paniala</i>	5
3. <i>Syzygium cumini</i> (Waa)	9
4. Nutraceutical	9
5. Free radicals.....	10
6. Antioxidant	14
6.1 Type of antioxidant.....	15
6.2 Fruits and vegetables are good sources of antioxidants.....	17
3 METHODOLOGY	
Conceptual frame work	20
Part I Preparation of plant materials	23
Part II Monograph	24
- Macroscopic and microscopic method for ground plants	25
- Ethanol soluble extractive value and water soluble extractive... value	25
- Total ash and acid insoluble ash.....	25
- Preliminary phytochemical screening.....	26
- Thin layer chromatography (TLC) confirmation.....	27

CONTENTS (continued)

	PAGE
- High performance liquid chromatography (HPLC) chromatogram (finger print)	28
- UV-Vis chromatogram (finger print).....	29
Part III Preparation of plant extracts	30
- The preliminary method of extraction on biological screening.....	30
- Scale up of plant extracts.....	32
Part IV Determination of chemical constituent	33
- Determination of total monomeric anthocyanin and polymeric anthocyanin.....	34
- Determination of total phenolic compounds.....	36
- HPLC determination of ascorbic acid, cyanidin 3-glucoside, gallic acid, catechin, quercetin and kaempferol.....	36
- Statistical analysis.....	39
Part V Determination of antioxidant activity	40
- Reduction of 2,2-diphenyl-1-picrylhydrazyl (DPPH) radical and spectrophotometric assay	40
- Inhibition of lipid peroxidation in liposome assay	41
- Statistical analysis.....	42
Part VI <i>In vitro</i> cytotoxicity Assay	43
Part VII Determination of nutritive value	47
- Determination of ash and mineral content.....	48
- Determination of moisture.....	48
- Determination of crude fat.....	48
- Determination of crude protein.....	48
- Determination of crude fiber.....	49
- Percentage carbohydrate.....	49
- Energy.....	49
- Statistical analysis.....	49

CONTENTS (continued)

	PAGE
Part VIII Purified compounds by column chromatography	50
with bioassay-guide fractionation	
Part IX Stability test	52
- Accelerate condition.....	52
- Ambient temperature condition.....	52
- Statistical analysis.....	53
4 FINDING AND RESULTS	
Part I Preparation of plant materials	54
Part II Monograph	54
- Macroscopic	54
- Microscopic.....	55
- Ethanol soluble extractive value, water soluble extractive.....	58
value, total ash and acid insoluble ash	
- Preliminary phytochemical screening.....	59
- Thin layer chromatography (TLC) confirmation.....	61
- High performance liquid chromatography (HPLC)	64
chromatogram (finger print)	
- UV-Vis spectrum (finger print)	67
Part III Preparation of plant extracts	69
- Percentage yield and characteristics of extracts.....	69
- UV-Vis spectrum (fingerprint) of extracts.....	73
Part IV Determination of chemical constituent	75
- Determination of total monomeric anthocyanin and.....	75
polymeric anthocyanin	
- Determination of total phenolic compounds.....	79
- HPLC determination of ascorbic acid, cyanidin 3-glucoside,.....	81
gallic acid, catechin, quercetin and kaempferol	

CONTENTS (continued)

	PAGE
Part V Determination of antioxidant activity	91
- Reduction of 2,2-diphenyl-1-picrylhydrazyl (DPPH) radical.....	91
and spectrophotometric assay	
- Inhibition of lipid peroxidation on liposome assay.....	94
Part VI <i>In vitro</i> cytotoxicity Assay	96
Part VII Determination of nutritive value	99
Part VIII Purified compounds by column chromatography	101
with bioassay-guide fractionation	
Part IX Stability test	110
- Accelerate condition.....	110
- Ambient temperature condition.....	117
5 CONCLUSIONS AND RECOMMENDATIONS	124
APPENDICES	131
APPENDIX A CHEMICAL REAGENT	132
APPENDIX B MS AND ¹H NMR SPECTRUM	139
APPENDIX C VALIDATION OF HPLC METHOD	141
BIBLIOGRAPHY	155
VITA	164
