

## ACKNOWLEDGMENTS

The author wishes to express his profound gratitude and sincerest appreciation to his advisor, Associate Professor Dr. Pruettha Nanakorn, for his valuable guidance, enthusiastic encouragement, and advice throughout his study. The author is also truly grateful to his advisor and Sirindhorn International Institute of Technology, Thammasat University for offering the financial support in form of teaching and research assistance.

He also acknowledges Dr. Somnuk Tangtermsirikul for his comment and serving as a member of the examination committee. His acknowledgement is also extended to Dr. Kiertisak Sahasakmontri for his discussion, comment, and serving as a member of examination committee.

Profound thanks are also extended to other faculty members in the Department of Civil Engineering, Sirindhorn International Institute of Technology, and the Department of Civil Engineering, Faculty of Engineering, Thammasat University for their lectures.

The author also thanks the Asian Development Bank (ADB) for the financial support to the author.

Special thanks are also given to the secretaries of the Department of Civil Engineering, Sirindhorn International Institute of Technology, Ms. Suwanna Punyadee and Ms. Cholthicha Pradidkwan for all their helps.

The author also expresses his gratitude to his parents for their support and encouragement for his study and living.
