

List of Figures

Figure	Page
1.1 Foraging behavior of ants	1
3.1 The double bridges experiment with same path lengths	7
3.2 <i>Linepithema Humile</i> (also known as Argentine ant)	8
3.3 <i>Lasius Niger</i> (also known as small black ant)	8
3.4 The results from the double bridges experiment with same path lengths (Bonabeau et al. 1997)	9
3.5 The double bridges experiment with different path lengths	9
3.6 The results from the double bridges experiment with different path lengths (Bonabeau et al. 1997)	10
4.1 Example of structural sizing optimization by the ACO approach	16
4.2 Bilinear scaling for the quality function	18
5.1 Six-bar truss	22
5.2 Calculation set and its extracted information	25
5.3 Ten-bar truss	26
5.4 Fifty-two-bar truss	30
5.5 One-bay eight-story frame	32
