

## List of Tables

<b>Table</b>	<b>Page</b>
5.1 Design and ACO parameters for the six-bar truss problem	23
5.2 GA parameters for the six-bar truss problem	23
5.3 Comparison of the results obtained by the proposed algorithm and the standard GA for the six-bar truss problem	24
5.4 Comparison of the best result for the six-bar truss problem with the literature	24
5.5 Constrained displacements and stresses of the best result for the six-bar truss problem	25
5.6 Design and ACO parameters for the ten-bar truss problem	26
5.7 GA parameters for the ten-bar truss problem	26
5.8 Comparison of the results obtained by the proposed algorithm and the standard GA for the ten-bar truss problem	27
5.9 Comparison of the best result for the ten-bar truss problem with the literature	27
5.10 Constrained displacements of the results for the ten-bar truss problem	28
5.11 Constrained stresses of the results for the ten-bar truss problem	28
5.12 Design and ACO parameters for the fifty-two-bar truss problem	31
5.13 The results obtained by the proposed algorithm for the fifty-two-bar truss problem	31
5.14 Comparison of the best result for the fifty-two-bar truss problem with the literature	31
5.15 Design and ACO parameters for the one-bay eight-story frame problem	32
5.16 The results obtained by the proposed algorithm for the one-bay eight-story frame problem	33
5.17 Comparison of the best result for the one-bay eight-story frame problem with the literature	33
