Abstract.....	iii
Table of Contents.....	iv
List of Figures.....	vii
List of Tables.....	xi
List of Symbols and Abbreviations.....	xii
 Chapter	
1. Introduction.....	1
1.1. Motivation and Scope.....	3
1.2. Thesis Outline:.....	3
2. Literature Review.....	5
2.1. PN Code Timing Acquisition System.....	5
2.1.1. Classification of PN Code Acquisition System.....	5
2.1.2. Performance Analysis Technique for PN Code Acquisition System.....	5
2.1.3. PN Code Acquisition in Multipath and Fading.....	6
2.1.4. PN Code Acquisition with Automatic Threshold Setting.....	7
2.1.5. PN Code Acquisition with Diversity.....	8
2.1.6. PN Code Acquisition in Many Dimensional Uncertainty Region.....	9
2.1.7. PN Code Acquisition Using Auxiliary Signal.....	9
2.1.8. Further Topics in PN Code Acquisition.....	9
2.2. PN Code Tracking Circuit.....	10
3. Modified Extended Range DLL Applying Selection Branch Algorithm.....	12
3.1. Correlation Branch Selection DLL (SelDLL).....	15
3.2. Parallel Early-Late DLL (PelDLL).....	19
3.3. Parallel Extended Range DLL (PerDLL).....	22
3.4. Performance Evaluation Results.....	26
3.5. Summary.....	27
4. Acquisition of PN Sequence for Coherent DS/SS Systems with Sectional Code Phase Estimator.....	33
4.1. Proposed Coherent PN Acquisition Scheme.....	34
4.2. The Sectional Code Phase Estimator.....	36
4.2.1. The Fundamental Idea.....	36
4.2.2. Sectional Code Phase Estimator Comprising Three Correlator Branches.....	39
4.2.2.1. Auxiliary Signals and Their Periodic Cross-correlation...	40
4.2.2.2. Probability of Correct Estimate.....	42
4.2.3. Sectional Code Phase Estimator Comprising M Branches.....	44
4.3. Code Phase Alignment Detector.....	46

4.4.	Probabilities for the Sectional Code Phase Estimator.....	48
4.4.1.	Conditional Probability of Correct Estimate.....	48
4.4.2.	Unconditional Probability of Detectable Incorrect Estimate.....	53
4.4.3.	Conditional Probability of Detectable Incorrect Estimate.....	57
4.4.4.	Unconditional and Conditional Probability of Non-detectable Incorrect Estimate.....	59
4.5.	Summary.....	63
5.	Acquisition Time Analysis for Proposed Coherent Acquisition System.....	64
5.1.	Signal Flow Graph of the Proposed Coherent PN Acquisition Scheme.....	64
5.2.	Probability Generating Function $H_{C,i}(z)$	67
5.2.1.	Probability Generating Functions $G_{1,C}(z)$ and $G_{2,C}(z)$	71
5.2.2.	Probability Generating Functions $G_{1,CM}(z)$ and $G_{2,CM}(z)$	73
5.3.	Probability Generating Function $H_{CM,i}(z)$	75
5.4.	Probability Generating Function $H_{R,i}(z)$	77
5.4.1.	Probability Generating Functions $G_{1,R}(z)$, $G_{2,R}(z)$, $G_{3,R}(z)$, and $G_{4,R}(z)$	79
5.4.2.	Probability Generating Functions $G_{1,RM}(z)$, $G_{2,RM}(z)$, $G_{3,RM}(z)$, and $G_{4,RM}(z)$	81
5.5.	Probability Generating Function $H_{RM,i}(z)$	81
5.6.	Probability Generating Function $H_{E,i}(z)$	82
5.6.1.	Probability Generating Functions $G_{1,E}(z)$ and $G_{2,E}(z)$	84
5.7.	$W(z)$ Family of Probability Generating Functions.....	85
5.8.	Time Duration Used in Computing Sectional Estimate.....	87
5.9.	Probability Mass Function and Mean of Acquisition Time.....	89
5.10.	Summary.....	91
6.	Performance Evaluation and Discussions of Coherent Acquisition with Sectional Code Phase Estimator.....	92
6.1.	Unconditional Probability of Sectional Estimate.....	92
6.1.1.	Unconditional Probability of Correct Estimate P_c	93
6.1.2.	Unconditional Probability of Correct Estimate in Transition Region $P_{c,tr}$	97
6.1.3.	Unconditional Probability of Detectable Incorrect Estimate in Transition Region P_r	98
6.1.4.	Unconditional Probability of Detectable Estimate in Transition Region.....	99
6.1.5.	Summary.....	99
6.2.	Conditional Probability of Sectional Estimate.....	100
6.2.1.	Conditional Probability of Correct Estimate.....	100
6.2.2.	Conditional Probability of Correct Estimate in Transition Region...	105
6.2.3.	Conditional Probability of Detectable Incorrect Estimate in Transition Region.....	107

6.2.4. Conditional Probability of Detectable Estimate in Transition Region.....	109
6.2.5. Summary.....	110
6.3. Acquisition Time of the Proposed Scheme and Its Improvement.....	111
6.3.1. Mean and Variance of Acquisition Time, and Effect of M	111
6.3.2. Effect of N on the Acquisition Time.....	114
6.3.3. Effect of SNR on the Acquisition Time.....	116
6.3.4. Effect of L_0 to the Acquisition Time.....	119
6.3.5. Analytical Results of the Acquisition Time of the Proposed Coherent Acquisition Scheme.....	121
6.3.6. Summary.....	124
7. Conclusions.....	127
7.1. Summary.....	127
7.2. Further Topics for Future Research.....	128
Appendix	
A. The Signal Term in SelDLL.....	129
B. Correlation Coefficient, Covariance, and Variance in SelDLL.....	130
C. The Approximate Correlation Coefficient in SelDLL.....	132
D. The Probability of Correct Selection of SelDLL.....	133
E. The Signal Term in PelDLL.....	136
F. Correlation Coefficient, Covariance, and Variance in PelDLL.....	139
G. The Probability of Correct Selection of PelDLL.....	142
H. Correlation Coefficient, Covariance, and Variance in PerDLL.....	144
I. The Probability of Correct Selection of PerDLL.....	146
J. Variance of $w_{m,L}$	151
K. Correlation Coefficient Between $w_{r,L}$ and $w_{s,L}$	153
L. Probability of Correct Estimate.....	163
References.....	166
