

LIST OF TABLES

TABLE	PAGE
1.1 Wind pressure criteria of Building Control Act (1979)	1
6.1 Structural properties of three high-rise buildings	70
6.2 Dynamic damper design	70
6.3 Comparison of vibration responses for three high-rise buildings with various dynamic dampers	71
6.4 Design of TLD	71
6.5 Comparison of %response reduction of high-rise buildings with TMD and TLD	72
6.6 TMD and ATMD properties for high-rise buildings, 183 m, 317.5 m, and 400 m high	73
6.7 Comparisons of vibration responses for three high-rise buildings with vibration controls	73
