

List of Figures

Figure	Title	Page
3.1	Framework of Intelligent Group Discussion Support Agent (IGDSA)	12
3.2	Sample of Discussion Messages	14
3.3	The Tagging Output	18
3.4	The Framework of Information Extraction Agent	18
3.5	Intelligent Topic Detection Agent Framework	21
3.6	Framework of Preprocessed Centroid-based Classification Model	22
3.7	Example of DCSML Structure	25
4.1a	DCSML of Our Proposed System	33
4.1b	DCSML of Conventional System	33
4.2	The Example of Testing Data	35
4.3	Workflow of the Sliding Sentence Block of VMA=2	36
A.1	Database Design of POS Tagging Program	49
A.2	POS Tagging Program When Connection is Successful	50
A.3	POS Tagging Program after Selecting Words	51
A.4	POS Tagging Program after Selecting POStag	52
A.5	Warning Screen if Duplication Occurs	52
A.6	Confirm Screen if Saving Data is Successful	53
A.7	Example of Incorrect Word	54
A.8	Example of Filling Correct Word	55
A.9	POS Tagging Screen after Adding word to Dictionary	55
A.10	POS Tagging Screen for "GO TO"	56
B.1	Information Extraction Agent for Electronic Meeting System	57
B.2	Information Extraction Agent when Connection is Successful	58
B.3	Information Extraction Agent Screen after Receiving Utterances	59
B.4	Information Extraction Agent screen after Clicking "save"	60
B.5	Information Extraction Agent Screen after Saving Completes	61
C.1	Main Server System of Electronic Meeting System	62
C.2	Main Server System after Opening Port for Waiting to the Connections.	63
C.3	Screen after Entering the Discussion.	64
C.4	Main Server System Screen after Broadcasting the Discussion Messages.	64
C.5	Font Palette.	65
C.6	Screen after Changing Font.	66
C.7	Main Screen Illustrates IEA Results.	67
C.8	Main Screen after Selecting Key Decision Factor.	68

Figure	Title	Page
C.9	Main Screen after Confirmation.	68
C.10	Main Screen after Sending Key Decision Factor.	69
C.11	Save Dialog.	70
C.12	Main Screen after Saving Dialog.	70
C.13	Main Screen after Clearing Discussion Data.	71
C.14	Main Screen after Closing System.	72
C.15	Main Client Screen of Electronic Meeting System.	73
C.16	Main Client Screen after Connecting Server System.	74
C.17	Client Screen in Tab "Text Chat"	75
C.18	Example of Discussion Typing.	76
C.19	Client Screen after Broadcasting the Discussion.	76
C.20	Client Screen after Clearing Discussion Data.	77
C.21	Client Screen after Closing System.	78
