

List of Tables

Table	Caption	Page
3.1	Physical property table for R123 [49] and R141b [50]	18
3.2	Ejector's geometry.	30
4.1	Fluid properties of selected refrigerant R141b.	44
4.2	Setup information of the CFD model.	46
5.1	Validation of calculated primary mass flow rate with the experimental values.	48
7.1	Results of CFD simulation for the R141b ejector operated with various upstream pressure ratios.	79
7.2	Results of CFD simulation for the R141b ejector operated with a fixed upstream pressure ratio.	81
7.3	Summarized table for the effect of operating conditions on the R141b ejector.	83
8.1	Summarized table for the effect of geometries on the R141b ejector.	98
9.1	Effect of operating conditions and geometries on the R141b ejector.	102
B.1	Experimental and CFD results for R141b ejector.	110
B.2	Comparison of ejector performance from experimental measurement and CFD prediction (at critical point).	114
